

## Connectors 4mm

### Connectors

The connectors fit on serial and parallel connections of solar installations.

### UL and TÜV

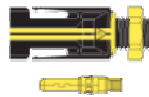

Its high quality level makes the product aging resistant. It has high pulling force, and is UV and ozone resistant as per the UL and TÜV standard.

### Strong and Outstanding

SOLINQ® has a strong design that stands out with its yellow-black color scheme. The product is fully compatible with current 3 and 4 mm diameter schemes. The gold plated connector has low contact resistance, contributing to sustainability.
